READING COMPREHENSION (25 points)

Question Number One: (15 points)

Read the text about New Year's resolutions and complete the tasks below:

It seems that people in the UK are turning away from traditional New Year's resolutions, like giving up smoking, in favour of more modern ones. A website has just published a list of the top resolutions for this year, showing that giving up smoking has dropped from first place to eighth.

Health-based resolutions like getting more exercise (second place) and eating more healthily (third place) remain popular, but the top choice, spending less money, probably says a lot about the economic situation. This year's fifth most popular resolution, wasting less time on social media sites like Facebook, also reflects modern times. Instead, people are resolving to spend more time with family and friends (sixth place), and to improve themselves by reading more (fourth place) or learning a language or musical instrument (seventh and ninth).

Trying to find a better job just makes it into the top ten. The website's director said that people were moving away from negative decisions like stopping bad habits towards more positive ones. 'They want to change their lives by doing something new,' he said, 'and there's a definite feeling that this kind of resolution has a better chance of success.'
